

**Kingston Bouncy
Castle Rentals**

Castle Setup/

1 Prepare castle and accessories for setup. You should have a castle in a blue duffle bag, a blower, a bag of stakes, two towels, and other accessories depending on the castle rented. Stakes must be used at all times when the castle is inflated.

2 Remove castle from blue duffle bag, unfold castle, and all slides and pools as well. Make sure the yellow blower tube is not twisted or folded. It needs to be extended straight out from the castle.

3 Set the blower next to the yellow blower tube, as shown in photo 3A. Cover the blower/air exit with the yellow tube and pull velcro strap gently, to tighten the tube to the exit, as shown in photo 3B. Make sure the entire velcro strap is attached over the lip of the blower.

Plug the blower into an outlet or extension cord. Take note of the **"RESET"** and **"TEST"** buttons on the back of the plug. Turn the blower **ON** by pushing the **"ON/OFF"** switch to the **"ON"** position.

***NOTE*:** The blower may not start when turned on. **THIS IS NORMAL.** Find the **"RESET"** button on the back of the plug in. Push the **"RESET"** button, and the blower will start.

5 The towels are supplied with each castle to eliminate mud from the castle surface. Towels **MUST** be placed at each entry point around the inflatable unit. Children **MUST** wipe mud/dirt from their feet **BEFORE** entering the castle. There is **NO** need to wash towels before returning your rental.

Deflation process

6 To deflate the castle, push the **"ON/OFF"** switch to the **"OFF"** position. Remove the yellow tube from the air exit on the blower as shown in photo 5. Allow the castle at least 15 minutes to deflate.

7 Once the castle is fully deflated, you can wash off any soiled spots or markings and remove grass/leaves from the castle.

**USE ONLY WATER TO CLEAN
THE CASTLES.**

8 Prepare the castle to be packed up by folding in pools and slides first. The castle should be in the shape of a square. Fold castle in half, then in half again, in the same direction. Push air out of the castle as you fold.

9 Once the castle is rolled up, place the castle back into blue duffle bag and close the zipper.

10 Prepare castle and all accessories to be returned. Double check to make sure you haven't forgotten anything!

Castles can not be used in the rain. During rain the castle/accessories can stay outside but the blower MUST be stored in a cool/dry place.
